Summary

Computer Science Graduate | System Development Student

I am Sisonke Msezane, a passionate Computer Science graduate from Wits University with a keen interest in software development and system development. Currently, I am pursuing further studies in System Development at WeThinkCode, where I am honing my skills and expanding my knowledge in the field.

Throughout my academic journey, I have gained a solid foundation in computer science principles such as OOP, programming languages, and software engineering methodologies. I am proficient in Java and Python, having worked on various projects utilizing these languages to develop efficient and reliable solutions. I have experience in developing both console-based applications, Mobile and Web applications, employing technologies like Flutter, React Native, Java(AndroidSDK) and Javalin(APIs) just to name a few .

In addition to programming languages, I am well-versed in version control systems like Git, enabling seamless collaboration and efficient project management. I understand the importance of maintaining clean and organized code repositories and actively utilize branching and merging strategies to facilitate team collaboration and code integration. I am currently focusing on mastering key system development concepts, such as agile methodologies, software testing, and system architecture

Experience

Technical Mentor

WeThinkCode

Sep 2023 - Present (2 months)

Contract, end date: Dec 2023.

Mentoring the 2022 cohort and guiding them on how to best go through the course. Providing technical support and explaining complex technical concepts in Python. Introducing students to how to best work in a team using tools like Git for project management, Agile methodologies like Scrum for better team collaboration.

we think code
